Chris,
This works for us.

Betsy and Andy.....Please make the cost changes on the \$8,000 and the \$9,000 barrels. Keep the \$6,500 price the same.

Larry

Subject: Emu Oil

Larry,

Andy and I discussed the barrel situation and would like to propose that we keep the \$6,500 barrels where they are at since we are already taking a hit on them. We do not want to take a hit on top of a hit so to speak. On the next two price levels where we are not taking quite a hit we will back the price down by what ever the price per gallon works out to. On the \$8,000 barrels we will back the price down by \$344.72 per barrel and on the \$9,000 barrels that would work out to \$387.83 per barrel. We can round these #'s off if it makes sense. Let us know what your thoughts are. Thanks CB
